

Edy Ridge Elementary ~ Fourth Grade

News from room 24

Spring Conferences May 3rd & 4th:

Conferences are coming up in May. Your child will share some of their 4th grade accomplishments with you and there will be time to meet with me to review the year's goals and achievements. Be on the lookout for scheduling information mid month.

Self Managers

We are starting a "self manager" program here in room 24. Students who have shown me that they can be independent and follow school rules will be given some "perks" and extra freedom. This is a great incentive and reward for good behavior, please encourage your child to follow the three B's!

Heartfelt Thanks

Thanks to all for teacher appreciation love! It was a very special week.

LEARNING HIGHLIGHTS FOR APRIL

Language Arts/Social Studies:

Our Lewis and Clark unit is off and running. Each student has taken on the identity of a member of the Corps of Discovery. We are reading *The Captain's Dog* by Roland Smith and journaling as we go along the trail.

Math:

We are wrapping up our Geometry and Measurement unit next week. We've reviewed tons of vocabulary and worked hard on measuring angles, area and perimeter. Unit 6 includes more work with multiplication, division, data collections/displays and fractions.

Smarter Balanced Assessment Consortium (SBAC):

SBAC testing will begin in May. As I've said before, please do all you can to have your child here on testing days, as they will be more comfortable taking the tests with the rest of the class, instead of a make up test with a different teacher/group.

HELP WANTED!! We are (desperately) looking for assistance with a class project for the Carnival. We need to create a Dr. Seuss themed paper kite. If you have the time and an idea, please contact me.

April 2018

Reminders:
